

Party in the jungle

There's a party in the jungle
The animals are dressed to go
They won't get any sleep tonight
They're going to dance until it's light, 'til daylight

Dance, dance, dancing all night long x3
Dancing with their friends

All the animals are tired
They've been dancing all night long
They can hardly move their feet
They all want to go sleep
Go to sleep little elephants
Go to sleep little crocodiles
Go to sleep little animals
It's time to go to sleep
